

Encryption Registration Supplement No. 5 to Part 742—page 1 **SUPPLEMENT NO. 5 TO
PART 742 - ENCRYPTION REGISTRATION**

Certain classification requests and self-classification reports for encryption items must be supported by an encryption registration, i.e., the information as described in this Supplement, submitted as a support documentation attachment to an application in accordance with the procedures described in §§ 740.17(b), 740.17(d), 742.15(b), 748.1, 748.3 and Supplement No. 2 to part 748 of the EAR.

(1) Point of Contact Information

(a) Contact Person : Ilia Zelenkin

(b) Telephone Number: +34686219954

(c) Fax Number

(d) E-mail address : ilia.zelenkin@buympi.com

(e) Mailing Address: carrer de Josep Estivill, 75, 1-1, Barcelona, Spain, 08027

(2) Company Overview (approximately 100 words).

We are a small startup company which creates different client applications with use of encryption. Our first product is Saferoom which will use standard AES-256 encryption to protect Evernote notes for the users. Later we will expand a support for Dropbox, OneNote and etc.

(3) Identify which of the following categories apply to your company's technology/families of products:

- (a) Wireless
 - (i) 3G cellular
 - (ii) 4G cellular/WiMax/LTE
 - (iii) Short-range wireless / WLAN
 - (iv) Satellite

- (v) Radios
- (vi) Mobile communications, n.e.s.
- (b) Mobile applications
- YES: We create mobile applications**
- (c) Computing platforms
- (d) Multimedia over IP
- (e) Trusted computing
- (f) Network infrastructure
- (g) Link layer encryption
- (h) Smartcards or other identity management
- (i) Computer or network forensics
- (j) Software

YES: We create software.

- Operating systems
- Applications

YES: We create software applications.

- (k) Toolkits / ASICs / components
- (l) Information security including secure storage
- (m) Gaming
- (n) Cryptanalytic tools
- (o) “Open cryptographic interface” (or other support for user-supplied or non-standard cryptography)
- (p) Other (identify any not listed above)
- (q) Not Applicable (Not a producer of encryption or information technology items)

(4) Describe whether the products incorporate or use proprietary, unpublished or non-standard cryptographic functionality, including encryption algorithms or protocols that have not been adopted or approved by a duly recognized

international standards body. (If unsure, please explain)

Our products do not use any proprietary, unpublished or non-standard cryptographic functionality. Our company is using standard AES-256 bit realization through a open-source library called RNCrypto. This library is using standard built-in into iOS operating system and MacOS operating system encryption algorithms.

(5) Will your company be exporting “encryption source code”?

No.

(6) Do the products incorporate encryption components produced or furnished by non-U.S. sources or vendors? (If unsure, please explain)

No.

(7) With respect to your companys encryption products, are any of them manufactured outside the United States? If yes, provide manufacturing locations. (Insert “not applicable”, if you are not the principal producer of encryption products)

Yes. Barcelona, Spain, 08027.
